

othello°

hello **life**

We Derive Our Strength from Our Production

Our journey for creating an exceptional healthy and quality sleep culture started in the year 1993 at a 250 sqm area with a 100% local investment.

Our enthusiasm has always accompanied us in this journey in everything we designed and manufactured.

Today we are proud to sell our products to 55 countries worldwide as well as local major brands and companies that lead fashion and home industries in Turkey.

Our manufacturing facility is located on a 52.000 sqm area in Akyazi, Sakarya/ Turkey which is Europe's most advanced manufacturing plant completely owned by Maya Textile.

Sustainability is always at the heart of our business at everything we do and therefore respect in nature and animal rights are the key essences of our brand.

Our Priority,

Respect to Animals and Nature

Maya Textile, has become a member of EDFA and IDFB in 2010 which requires certification and tracing of its resources about down feather.

In addition to these commitments due to our deep respect to animal rights and social responsibility strategies, Maya Textile only use recycled down feather in its production processes which are delivered from livestock goose farms.

As part of our commitment to sustainability, our pillows and duvets are filled with 100% recycled down feather.

FEATHERS FROM THE WATERFOWL BIRDS, RAISED AS LIVESTOCK AT DUCKS AND GEESE FARMS ARE RE-CYCLED AND USED FOR FILLING PILLOWS AND DUVETS.

Why Down Feather?

Best sleeping comfort

Down feather is the best natural filling material with the highest temperature insulation. It is healthy, comfortable and durable.

It is light. You will not feel its presence but will certainly enjoy its benefits.

It is hygroscopic. It absorbs and detains the humidity in the environment and releases it back in the daytime. That is to say, it protects you from humidity and keeps you dry.

It does not keep bacteria. It is odorless. It does not host any dust mites since it repels humidity or oil.

It retains the heat 2.5 times more as compared to other filling materials. It ensures energy saving.

You can wash it, dry it at 30°C in a tumble dryer and use it for many years.

othello°

hello life

Since 1993, the values that define us have been courage, trust, and passion.

At the core of Othello sleep products, there are harmonious awakenings related to the life cycle, where night meets day.

For mornings when you will wake up healthier, more energetic, lighter, and more comfortable, pillows & duvets, toppers, and mattress protectors are available in Othello's rich collection.

FILLING

Wool is a naturally breathable filling material. This makes it a most effective temperature regulator and resistant to humidity. Wool has been a traditional filling material for thousands of years for a luxurious, comfortable and peaceful sleep. Wool offers excellent comfort in various sleeping conditions due to its ability to breathe and regulate body temperature naturally.

- Provides insulation against heat and cold.
- Regulates ambient humidity.
- Reduces static electricity.
- Difficult to wear off. It is long lasting.
- It protects its volume and fullness.

WASHING INSTRUCTIONS FOR PILLOW: Only the cover can be washed at 30°C. Do not wash the inner pillow..

WASHING INSTRUCTIONS FOR DUVET: Can be washed at 30°C. Do not use bleach. Can be tumble dried. Do not iron.

IMPORTANT NOTE: If you do not have a tumble dryer, only dry cleaning is recommended.

Dormio Trio DUVETS SUITABLE FOR FOUR SEASONS

Dormio Trio , created with the perfect combination of two duvets, offers you three different sleeping options.

One side of the duvet features plush fabric, while the other side is made of microfibre fabric. With a 250g/m² microfibre filling, this duvet is an excellent choice during seasonal transitions when the cold weather begins to set in.

The other duvet has microfibre fabric on both sides and is ideal for spring and summer, with a 150g/m² filling, making it perfect for warmer weather.

When you combine the two duvets with snap fasteners, it guarantees a warm and cozy sleep experience even on the coldest winter nights. With these features, Dormio Trio stands out as a unique product suitable for use in all four seasons.

Along with the Dormio Trio duvet, a zippered pillowcase with one side made of plush fabric and the other side made of microfibre fabric is also included in the set.

WASHING INSTRUCTIONS: It can be washed at 30°C. No bleach. It can be dried in a dryer with Othello's shampoo & dryer ball .No ironing. Suitable for dry cleaning.

Micro Fabric

150 gr/m²

Made from a thin and lightweight crinkled fabric, the two different duvets offer alternative usage with their snap-button design. You can choose single or double use depending on the season, providing functionality according to the temperature. In colder seasons, it offers warmth when used together, while in milder seasons, it provides a comfortable sleep when used individually. The simple and modern look of the crinkled fabric allows for use without a duvet cover. With practical washing and quick protection features, it ensures a hygienic sleep environment.

WASHING INSTRUCTIONS: Can be washed at 30°C with Othello's shampoo & drying balls. Do not use bleach. Can be tumble dried. Do not iron.

It is an innovative and smartly designed functional pillow and duvet collection that provides comfort and support tailored to different sleep habits, adapting to your personal sleep preferences.

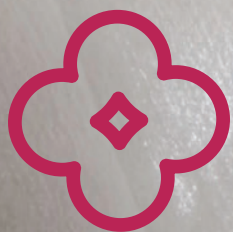

By combining two duvets with its snap-button design, it offers the unique advantage of alternative use, adapting to seasonal changes based on your ideal temperature. In colder seasons, it provides warmth when used together, while in milder seasons, it offers a comfortable sleep when used individually.

Thanks to its removable supersoft visco layer and zippered microfibre layer, it can be adjusted for stomach and side sleeping positions. The dual-sided functional design provides ideal support for both sleeping positions.

With practical washing and quick protection features, they are long-lasting and easy-care products that can be used without a duvet cover.

ClimaGel - Migranie Mask

New

The effective way to relieve your headaches.

Climagel Migraine Mask is a product specially designed for headache relief and relaxation. With its gel-filled and flexible structure, it can be used effectively during a headache or migraine attack with a cooling effect.

Cooling compresses blood vessels to relieve pain, while heating increases blood circulation and relaxes muscles.

1. Store Climagel Migraine Mask in a clean and dry place before use.
2. During a headache or migraine attack, cool the mask in the refrigerator.
3. Position the mask comfortably around your head and place it on the aching area.
4. You can use the mask as long as you like. Keep it clean and hygienic after each use.

A light brown teddy bear is sitting and holding a white, quilted square pillow. The pillow has the words "hello life" printed on it in a dark blue, sans-serif font. The bear is positioned behind the pillow, with its head and front paws visible. The background is a light gray surface with a large, semi-transparent white circle behind the bear and pillow. In the top right corner, there is a small white logo consisting of a lowercase 'o' with a dot above it. In the bottom right corner, the number "63" is printed.

hello life

othello.

Laundry Products

Pillow & Duvet Shampoo

New

Superior cleaning for sensitive fabrics

Othello Pillow & Duvet Shampoo is a sensitive detergent specially formulated for goose down and wool products. It gives your laundry a nice scent and hygiene and cleans even sensitive fabrics very well. It is specially formulated for pillows and duvets, which are the most delicate of home textiles. With its filling-specific formula, it removes stains without damaging the filling material of pillows and quilts, while making your sleeping products softer.

Features:

- Special formula for delicate fabrics: Provides effective cleaning without damaging the texture of goose down, cashmere and similar delicate fabrics.
- Long Lasting Freshness: Provides long-lasting freshness and protection for your sleep products.
- Storage Conditions: Store in cool conditions. Keep away from direct sunlight and heat. The product must be stored in its original packaging. Do not mix with any other substances.

Shelf Life: Shelf life is 2 years under suitable storage conditions.

Laundry Balls

New

Your laundry will dry faster and more efficiently with the Othello Laundry Drying Ball! It reduces drying time, softens your laundry and prevents wrinkles. Plus, these balls can be used repeatedly and are easy to take anywhere.

- Reduces drying time: Reduce drying time by 20-40% by placing your laundry in the dryer with a pillow or duvet. Prevents moisture buildup by evenly distributing heat.
- Softening Effect: Softens your clothes, minimizes wrinkles and creases by massaging the fabric.
- Safe and durable: Made of high-quality, renewable and chemical free PVC material, it will not damage laundry and washing machines.
- Quiet and effective: It increases hot air circulation by separating the clothes during drying and works quietly. It also removes hair and lint.

Instructions for use: Start your machine by adding the drying balls to your laundry. Effective up to 1400 cycles.

PILLOW & DUVET SHAMPOO, DRYING BALL

- It is specially formulated for pillows & quilts, which require the most care in home textiles.
- With its special filling formula, Othello pillow & duvet shampoo provides extra cleaning in the washing machine.
- Thanks to its powerful formula, it removes stains without damaging the filling material of pillows and quilts, while keeping your sleeping products softer.
- It offers long-lasting use with special components that protect the texture of the quality fabric of your bedding.

Licences

NOMITE®

The Nomite® sign on MAYA TEKSTİL products, is the most concrete document of the absence of house dust mites in our down & feather pillows, duvets and sleeping pads.

Nomite®, a trademark of EDFA (European Down and Feather Association), which registers the production of home textile products in European standards, shows that our home textile products have higher hygienic qualifications. Manufacturers using Nomite® certification are considered to have accepted the criteria of the German Norm Institute via PASS 1008. Accordingly, the products containing the Nomite® certificate are certified to be suitable even for persons with allergies to feathers and feather-based materials.

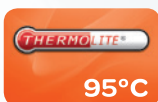

WOOLMARK®

Woolmark® certified products must meet ironclad quality and performance standards. Only the best quality wools can carry the Woolmark® brand. The Woolmark® brand is one of the world's most recognized textile brands. The Woolmark® brand provides consumers with guaranteed fiber content and quality assurance. The Woolmark® brands is backed by technical specifications and strict and rigorous independent testing and inspections.

OUTLAST®

Outlast® is the technology that NASA uses to make space suits for astronauts, that keeps the suit from getting too cold or too hot. The Outlast® certified products is made from millions of capsules filled with a special wax with heat absorption and release capacities, beneath the operating surface. Pillows and duvets made with Outlast® technology reduce and stabilize temperature fluctuations.

THERMOLITE 95°C®

Hygienic comfort that's washable 95°C. The fiber beads used in the Thermolite®95°C pillow give the necessary support to your head and neck by shifting places according to your movements during sleep. Perforated and silicone fibers are used in the Thermolite®95°C duvet which makes light, warm and comfortable. It maintains its shape and does not create uncomfortable clumps.

Thermolite®95°C pillows and duvets can be washed at 95°C in a washing machine and while they can also be machine dried. The filler material is 100% micro gel and odorless.

GRS

The Global Recycled Standard (GRS) is a voluntary product standard for tracking and verifying the content of recycled materials in a final product. The standard applies to the full supply chain and addresses traceability, environmental principles, social requirements, chemical content and labeling. A reliable and accredited certification body for textile standards, Maya Tekstil Akyazı Factory was granted the GRS Certificate within the scope of the Global Recycled Standard.

RDS

Ensure that down and feathers do not come from supply chains where animals have been subjected to any unnecessary harm. Reward and influence the down and feather industry to incentivize practices that respect the humane treatment of ducks and geese. Education and development of the supply chain to drive continuous improvement of best practices. Provide companies with a tool to know what is in their products, and to make accurate claims. Ensure strong chain of custody for certified materials as they move through the supply chain.

Maya Tekstil does not contain products that are sold as a result of practices involving violence or cruelty to animals in terms of obtaining products used as animal products.

RCS

The Recycled Claim Standard (RCS) is an international, voluntary standard that sets requirements for third-party certification of Recycled input and chain of custody. The goal of the RCS is to increase the use of Recycled materials.

Certificates

ISO 9001: 2008

ISO 9001 (International Organization for Standardization)

ISO 9000 Quality Standards Range is a collection of standards issued by the International Organization for Standardization (ISO) as a guide for installation and improvement of the Quality Management System for increasing the level of satisfaction of the consumers.

OHSAS 18001:

2007 Occupational Health and Safety Management System: The main purpose of OHSAS 18001 is to eliminate or minimize risk and create and manage a healthy and secure working environment in line with the applicable legislation on occupational health and safety.
